

Rebates for energy savings!

Reduce the Use: Business is the commercial component of Santee Cooper's comprehensive Reduce the Use program intended to lower the overall use of electricity.

BUSINESS

OPERATE MORE EFFICIENTLY: Santee Cooper's decade-long program offers incentives to encourage businesses to adopt more energy-efficient technologies and procedures. In addition to rebates, lower energy consumption may result in significant monetary savings for your business.

Business Prescriptive Rebate Program

LIGHTING REBATES: Convert inefficient lighting to more energy-efficient lighting (For example: convert T-12 fluorescents to high-efficiency T-8 ballasts and lamps.) You can also install occupancy sensors and day light controls.

REBATES: \$.25 per watt saved or avoided for lighting upgrades. \$30-\$50 per sensor or control depending on the devices selected.

HVAC REBATES: Includes rooftop units, split systems, unitary systems, chillers, VFDs for air handlers, duct sealing, tune-ups and quality installations.

REBATES: \$10 to \$75+ per ton, depending on equipment efficiency. \$100 to \$200 per system for quality installation, tune-ups or duct sealing depending on the measure.

COMMERCIAL REFRIGERATION REBATES: Includes ENERGY STAR® commercial equipment, case lighting, anti-sweat heater controls, as well as many other qualifying measures.

REBATES: \$3.00 to \$150 per linear foot, or \$5.00 to \$500 per item, depending on upgrade.

BUILDING ENVELOPE REBATES: Rebates for energy-efficient improvements to buildings including ENERGY STAR windows, roof insulation, cool roof, window film and other measures.

REBATES: \$.10 to \$.75 per foot, depending on the measure.
