

**ReTHINK.** The time has come to rethink the way we all use energy. Consider how much energy you consume on a daily basis. The small steps you take to become more energy efficient add up to big savings over time – especially when you are joined by other Santee Cooper customers.

Santee Cooper is rethinking its role too, aggressively promoting energy efficiency at work and home through 42 initiatives that will help you save energy and money.

**ReDUCE.** Each of us uses electricity every day. Heating and cooling use the lion's share of energy in a typical home, followed by water heaters and kitchen appliances. Then come computers, lighting, electronic gadgets and chargers that all have “on” and “off” switches.

Turn off. Unplug. Close up. Whatever it takes, you have the power to save and Santee Cooper is here to help.

**ReNEW.** Santee Cooper is helping customers conserve energy through education and best practices, as well as through incentives and rebate programs. Renew your home by replacing old, energy hungry appliances with ENERGY STAR® qualified models and by installing other energy efficient features.
